TEKWERKS SOLUTIONS INC.
YEAR END Report – Form 51
for the year ended March 31, 2002

Schedule C: Management Discussion

Description of Business

The Company is a capital pool company pursuant to the policies of the Exchange. The Company's principal business is to identify and evaluate opportunities for the acquisition of an interest in assets or businesses and, once identified and evaluated, to negotiate an acquisition or participation subject to receipt of shareholder approval and acceptance for filing by the TSX Venture Exchange. Currently, the Company does not have business operations other than cash and a prospective exploration licence in Greenland which cost the Company approximately \$6,000. Until the completion of a Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of assets or businesses in connection with potential Qualifying Transactions. The Company is required to complete an acquisition on or before August 7, 2002. With this in mind, the Company has filed documentation with the TSX Venture Exchange to accept the acquisition and subsequent exploration of the Greenland diamond property as the Qualifying Transaction.

Discussion of Operations and Financial Condition

Operations during the three months ended March 31, 2002 were primarily related to the identification and evaluation of a Qualifying Transaction. As of that date, there had been no agreements in this regard. The Company incurred costs related to this endeavour which are shown on the attached Income Statement. There were no investor relations arrangements entered into during the period. There were no transactions with related parties other than as disclosed in Schedule B Note 2. There also were no legal proceedings, contingent liabilities, defaults under debt or other contractual obligations or breaches of any laws or special resolutions during the period.

At March 31, 2002 the Company had total working capital of \$394,970 . It is expected that these funds are sufficient to complete its business as discussed in Description of Business above.

Subsequent Events

On May 14, 2002, the Company initiated discussions with the TSX Venture Exchange to propose a change of business from a CPC to a Tier 2 mining company. The Company staked an 851 square kilometre mineral property in Greenland and has prepared a Qualifying Report in support of this. Based on a series of discussions since then, the Company is in the process of completing an information circular for the AGM which incorporates the details of the transaction. Satisfaction of the requirement to complete a Qualifying Transaction by acquiring the Greenland Property is subject to acceptance of such acquisition by the TXS Venture Exchange and the shareholders of the Company.

Financings, Principal Purposes and Milestones

TekWerk's funds have not been allocated to any specific project or business. All costs incurred after the receipt of the prospectus have been consistent with the intended use of the net proceeds from the

Tekwerks Solutions Inc.
(formerly eVolution networking corp.)
Year End Report – Form 51
for the year ended March 31, 2002 – Page 2

prospectus and initial seed offering as indicated in the prospectus. The Company is proposing to conduct a small non-brokered private placement to support its proposed Qualifying Transaction.

Liquidity and Solvency

As at March 31, 2002, the Company had working capital of \$394,970. As of the date of this report, working capital is approximately \$370,000. The future of the Company is reliant on the Company completing the proposed Qualifying Transaction or finding another suitable business in which to complete a major transaction.

ON BEHALF OF THE BOARD OF DIRECTORS

TEKWERKS SOLUTIONS INC.

REPORT AND FINANCIAL STATEMENTS

March 31, 2002

AUDITORS' REPORT

To the Shareholders,
TekWerks Solutions Inc.

We have audited the balance sheets of TekWerks Solutions Inc. as at March 31, 2002 and 2001 and the statements of loss and deficit and cash flows for the years then ended. These financial statement are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2002 and 2001 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles. As required by the British Columbia Company Act, we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

SEE ACCOMPANYING NOTES

TEKWERKS SOLUTIONS INC.
NOTES TO THE FINANCIAL STATEMENTS
March 31, 2002 and 2001

Note 1 Nature and Continuance of Operations

The Company was incorporated under the Company Act of the Province of British Columbia on March 7, 2000, as eVolution networking corp. and changed its name to Tekwerks Solutions Inc. on September 25, 2000. The Company is classified as a Capital Pool Company as defined in the TSX Venture Exchange ("Exchange") Policy 2.4. The common shares of the Company began trading on the Exchange on February 7, 2001.

The Company's continued operations as intended are dependent upon its ability to identify, evaluate and negotiate an acquisition of, a participation in or an investment of an interest in a Qualifying Transaction (as defined). The Company is required to complete its Qualifying Transaction (as defined) within 18 months of listing on the Exchange. The acquisition will be subject to shareholder and regulatory approval (See Note 6).

These financial statements have been prepared on a going concern basis. The Company's ability to continue as a going concern is dependent upon the ability of the Company to generate profitable operations in the future and/or obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due.

Note 2 Significant Accounting Policies

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in Canada. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgement. Actual results may differ from these estimates.

These financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

(a) Financial Instruments

The carrying value of the Company's financial instruments, consisting of cash and term deposits, accounts receivable and accounts payable approximate their fair value due to the short-term maturity of such instruments. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

Note 2 Significant Accounting Policies – (cont'd)

(b) Loss Per Share

Loss per share amounts have been calculated and presented in accordance with the new recommendations of the Canadian Institute of Chartered Accountants. The new standard has been applied on a retroactive basis and had no impact on the amounts previously reported.

Basic earnings per share are computed by dividing the loss for the year by the weighted average number of common shares outstanding during the year. Diluted earnings per share reflect the potential dilution that could occur if potentially dilutive securities were exercised or converted to common stock. The dilutive effect of options and warrants and their equivalent is computed by application of the treasury stock method and the effect of convertible securities by the “if converted” method. Fully diluted amounts are not presented when the effect of the computations are anti-dilutive due to the losses incurred. Accordingly, there is no difference in the amounts presented for basic and diluted loss per share.

(c) Stock-based Compensation

The Company has a share purchase option plan which is described in Note 3. No compensation expense is recognized for this plan when shares or share purchase options are issued to employees or directors. Any consideration paid by employees or directors on the exercise of share purchase options or purchase of shares is credited to share capital.

(d) Resource Property

The acquisition of resource properties are initially recorded at cost and deferred until the mineral properties are placed into production, sold or abandoned. Upon commencement of commercial production, these costs will be amortized over their estimated useful lives based upon a method relating recoverable resource reserves to production. Non-producing resource properties that the Company abandons interest in are written-off in the year of abandonment.

(e) Income Taxes

Effective April 1, 2001 the Company retroactively has adopted the asset and liability method of accounting for income taxes, following new standards recommended by the Canadian Institute of Chartered Accountants (“CICA”). The effect of adopting the standards was not considered significant and did not impact amounts reported in prior years. Under this method, current income taxes are recognized for the estimated income taxes payable for the current period. Future income tax assets and liabilities are recognized for temporary differences between the tax and accounting basis of assets and liabilities as well as for the benefit of losses available to be carried forward to future years for tax purposes only if it is more likely than not that they can be realized.

Note 3 Share Capital

a) Authorized:

100,000,000 common shares without par value

	2002		2001	
	<u>Number</u>	<u>\$</u>	<u>Number</u>	<u>\$</u>
b) <u>Issued:</u>				
Balance, beginning of year	3,883,334	409,739	-	-

– escrow shares – at \$0.075	-	-	1,333,334	100,000
– pursuant to a private placement – at \$0.15	-	-	1,050,000	157,500
– pursuant to an initial public offering – at \$0.15	-	-	1,500,000	225,000
Less: share issue costs	-	-	-	(72,761)
	<u>3,883,334</u>	<u>409,739</u>	<u>3,883,334</u>	<u>409,739</u>

c) Escrow Shares:

At March 31, 2002, the Company has 1,333,334 common shares held in escrow. Subject to Section 11(5) of Policy 2.4 of the Exchange, after the completion of the Company's Qualifying Transaction as required under the requirements of the British Columbia Securities Commission and the Exchange, the escrow shares will be released pro rata to the shareholders as follows depending on which tier classification the Exchange designates the Company subsequent to completion of the Qualifying Transaction:

Tier One

- a) 25% following the issuance of Final Exchange Notice;
- b) 25% six months following the Final Exchange Notice;
- c) 25% twelve months following the Final Exchange Notice;
- d) 25% eighteen months following the Final Exchange Notice

Tier Two

- a) 10% following issuance of the Final Exchange Notice;
- b) 15% six months following the initial release;
- c) 15% twelve months following the initial release;
- d) 15% eighteen months following the initial release;
- e) 15% twenty four months following the initial release;
- f) 15% thirty months following the initial release;
- g) 15% thirty six months following the initial release

Note 3 Share Capital– (cont'd)

d) Commitments:

Stock-based Compensation Plan:

The Company has granted directors and officers common share purchase options. These options are granted with an exercise price equal to the market price of the Company's stock on the date of the grant. A summary of the status of the stock option plan as of March 31, 2002 and 2001 and the changes during the years ending on those dates is presented below:

	<u>March 31, 2002</u>		<u>March 31, 2001</u>	
	<u>Shares</u>	<u>Weighted Average Exercise Price</u>	<u>Shares</u>	<u>Weighted Average Exercise Price</u>
Options outstanding and exercisable at beginning of the period	388,333	\$0.15	-	-
Granted	-	-	388,333	\$0.15
Options outstanding and exercisable at end of the period	<u>388,333</u>	<u>\$0.15</u>	<u>388,333</u>	<u>\$0.15</u>

As at March 31, 2002, there are 388,333 share purchase options outstanding entitling the holders thereof the right to purchase one common share for each option held at \$0.15 per share. These share purchase options expire November 3, 2005.

Share Purchase Warrants:

As at March 31, 2002, there are 150,000 share purchase warrants outstanding entitling the holders thereof the right to purchase one common share for each warrant held at \$0.15 per share until August 7, 2002.

Note 4 Related Party Transactions

During the year ended March 31, 2002, the Company incurred office rent costs of \$10,403 (2001: \$4,361) with a company with a common director. These charges were measured by the exchange amount which is the amount agreed upon by the transacting parties and are on terms and conditions similar to non-related entities.

Note 5 Corporation Income Taxes

The Company has accumulated non-capital losses totalling \$43,541 which may be applied against future years taxable income. These losses begin to expire in 2008. The potential tax benefit of these losses, if any, has not been recorded in these financial statements.

Note 6 Subsequent Event

The Company is in the process of staking a mineral claim (“Naajat Claim”) consisting of approximately 851 square kilometres located in West Greenland. Staking costs are expected to be approximately \$6,000 of which \$951 as at March 31, 2002. The Company believes that the acquisition of the exploration rights and future exploration thereon will meet its requirements for a qualifying transaction as discussed in Note 1. Subsequent to March 31, 2002, documentation of the acquisition and request that it be considered as a qualifying transaction has been filed with the TSX Venture Exchange.
