HUDSON SUCCESSFULLY CONCLUDES COMMUNITY CONSULTATION MEETINGS IN GREENLAND FOR THE WHITE MOUNTAIN PROJECT

Vancouver, BC - **HUDSON RESOURCES INC.** (the “Company”) – (TSX Venture Exchange “HUD”; OTCQX “HUDRF”) is pleased to announce that community consultation meetings, which are a key component of the mine permitting process, have been successfully concluded in Greenland.

Information meetings were held in the towns of Kangaamiut, Maniitsoq, Itilleq, Kangerlussuaq, Sarfannguit and Sisimiut, which are located in the Qeqqata Kommunia (Municipality) and within 50km to 130km of the White Mountain project.

Hudson, along with the Minister of Industry, Labour, Trade and Foreign Affairs, Vittus Quiaukitsoq, the Minister of Nature, Environment and Justice, Mala Kuko Hoy, and Mayor Herman Berthelsen of Qeqqata Municipality made presentations in each of the six communities.

James Tuer, Hudson’s President, stated, “We are extremely pleased with the positive response from the communities and the strong support expressed for our project. The local communities and government clearly recognize the positive impacts the project will have. Completing these final public meetings is a major milestone in moving towards the granting of our exploitation license, which we hope to have in the coming months.”

Confirmation of the very positive nature of the meetings is highlighted in the recent government of Greenland press release, including the following translated excerpts: “There has been a large turnout for the many events. Questions and comments covered a wide spectrum - from how the project will affect the environmental conditions - over the effect on fishing and hunting - to what types of jobs that will be available to the ordinary citizen.” “Overall, environmental experts from the DCE and the Greenland Institute of Natural Resources confirmed it is a relatively straightforward project that will only have a limited environmental impact. Overall, there has been an overwhelming citizen support for the project”.

The full press release can be found in Danish and Greenlandic on the Government’s website. <http://naalakkersuisut.gl/da/Naalakkersuisut/Nyheder/2015/05/100515-Borgermoede-Sisimiut>

The public consultation comment period ends on May 29th, 2015. Hudson is currently negotiating the Impact Benefit Agreement (IBA), which it hopes to conclude in June.

The White Mountain project is 100% owned by Hudson. The anorthosite has three potential high value applications that are being investigated, as follows:

1. A new source of feedstock to the high-end fiberglass (E-glass) industry;
2. A new source of filler and coatings material, which are used by the plastics, paints and paper industries
3. A new source of high-purity specialty alumina.

ON BEHALF OF THE BOARD OF DIRECTORS

“James Tuer”

James Tuer, President
