HUDSON SIGNS 10-YEAR GLOBAL SUPPLY AGREEMENT FOR THE WHITE MOUNTAIN ANORTHOSITE PROJECT

Vancouver, BC - **HUDSON RESOURCES INC.** (the “Company”) – (TSX Venture Exchange “HUD”; OTCQX “HUDRF”) is pleased to announce that it has entered into a binding purchase agreement with a previously disclosed ([NR2014-04](#)), large North American materials company for the supply of Hudson’s White Mountain anorthosite product, to be used in the production of fiberglass.

The purchase agreement establishes a minimum 10-year commitment for significant annual purchase of the product. Hudson will be a global supplier, providing anorthosite as a feed material to the company’s fiberglass plants around the world.

Hudson expects to commence product shipments in the second half of 2016, subject to final permitting, financing and mine commissioning in Greenland.

James Tuer, Hudson’s President, stated, “Concluding our first off-take agreement with one of the world’s leading building materials companies is a major milestone for Hudson. Following more than two years of due diligence and testwork, the company has concluded that our White Mountain anorthosite can meet its exacting specifications. This supply agreement will cover a major portion of our initial planned production of 200,000 tonnes per year, and will provide a strong foundation for our business of supplying anorthosite to fiberglass producers worldwide.”

The White Mountain project is 100% owned by Hudson. The anorthosite has three potential high value applications that are being investigated, as follows:

1. A new source of feedstock to the high-end fiberglass industry;
2. A new source of filler and coatings material, which are used by the plastics, paints and paper industries
3. A new source of high-purity specialty alumina.

The Company is rapidly advancing the fiberglass project at White Mountain and expects to commence site preparation this year.

ON BEHALF OF THE BOARD OF DIRECTORS

“James Tuer”

James Tuer, President
